

International Cancer Research Conference

*Theme: Breaking Barriers,
Building Hope: Advancing Cancer
Research and Care*

**24-26
MARCH 2025
SINGAPORE**

Our OCMs

RAJVIR DAHIYA

University of California San Francisco,
United states

ATIF A AHMED

Seattle Children's Hospital,
United States

MICHAEL THOMPSON

University of Toronto,
Canada

SERGIO MARCHINI

Humanitas Clinical Institute IRCCS,
Italy

MARIKA CROHNS

Sanofi, Germany

Scientific TOPICS

- Types of Cancer
- Organ Specific Cancer
- Biology of Cancer
- Causes of cancer
- Warning Signs of Cancer
- Cancer Imaging Techniques
- Cancer Detection and Diagnosis
- Cancer Grades and Cancer Stages
- Clinical Research & Clinical Trials of cancer
- Treatments of Cancer
- Case Reports on Cancer (or) Oncology Treatments
- Cancer Management and Research
- Cancer Drugs Market
- Advances In Cancer Research And Treatment

VENUE
Singapore

Rajvir Dahiya, University of California San Francisco, United States

Title: A novel mRNA-genomic technology for screening, diagnosis, prognosis, personalized medicine and treatment of prostate cancer

Sergio Marchini, Humanitas Clinical Institute IRCCS, Italy

Title: Early diagnosis of ovarian cancer through pap test analysis

Mariola Borowska, Maria Sklodowska-Curie National Research Institute of Oncology, Poland

Title: Hospital care for cancer patients safety, quality of care, education and respect for patient's rights

Jian Li, Shanghai Jiaotong University, China

Title: Cancer-associated fibroblasts derived soluble CADM1 predicts response to neoadjuvant chemoimmunotherapy in lung cancer

Liling Jiang, Shapingba District People's Hospital of Chongqing, China

Title: Application of magnetic resonance-diffusion weighted imaging in thyroid nodules

Changjiang Yang, Peking University People's Hospital, China

Title: Importin7 induces M2 macrophage and promotes the progress of colorectal cancer by regulating the nucleus translocation of GRP78

Qian Zhang, The Affiliated Changzhou Second People's Hospital of Nanjing Medical University, China

Title: Deubiquitylase USP31 induces autophagy and promotes the progression in lung squamous cell carcinoma cells by stabilizing E2F1 expression

Zheng Wang, Shanghai Jiao Tong University School of Medicine, China

Title: Precision medicine and translational research of breast cancer

Isah Musa Fakai, Kebbi State University of Science and Technology, Nigeria

Title: Chalepin suppresses cell growth by down-regulation of the epidermal growth factor receptor downstream pathways and induced cell cycle arrest in MCF7 breast cancer cells

Maurice T. Agonnoude, ENATSE/UP, Benin

Title: Associated factors to practice of breast cancer screening among women in Parakou at 2021

Luiza Simonyan, L. Orbeli Institute of Physiology of the National Academy of Sciences of Armenia, Armenia

Title: Bioscope: A new instrumental approach for early diagnosis of oncological diseases

Alireza Bahramian, University of Tehran, Iran (Islamic Republic of)

Title: Mitotic shape, membrane tension, and spindle orientation: Thermodynamic markers for cancer detection

Nayab Mustansar, FCTH, Pakistan

Title: Neuroendocrine tumour of gall bladder - An extremely rare malignancy - Case report

Oral presentation slots are available

Mariola Borowska, Maria Sklodowska-Curie National Research Institute of Oncology, Poland

Title: HPV vaccination coverage in the European region

Mariola Borowska, Maria Sklodowska-Curie National Research Institute of Oncology, Poland

Title: Implementation of a population-based breast cancer prevention program in Poland before, during and after the COVID-19 pandemic. Poland in comparison with other countries

Jian Li, Shanghai Jiaotong University, China

Title: ADGRE5+ CD8+ T cells overcome resistance to neoadjuvant immunotherapy in lung cancer

Hefdhallah Saad Al-AIZARI, Ibn Tofail University, Morocco

Title: Study the risk and protective factors against cervical cancer in rabat region, Morocco

Davoud Shojaeizadeh, Tehran University of Medical Sciences, Iran (islamic Republic Of)

Title: The impact of social marketing based intervention on educating esophageal cancer preventive behaviors

Poster presentation slots are available
